Full-stack developer and guild lead building cloud infrastructure products with JavaScript, TypeScript, React, Node.js and Go. Combines end-to-end delivery with code ownership, engineering standards and practical AI adoption.

EXPERIENCE

Firefly | Full-Stack Developer | Jun 2025-Present

- Led the Full-Stack Guild and served as Code Owner, guiding technical decisions, code reviews and shared engineering standards.
- Championed AI adoption through reusable agent skills and workflows. Built an AI-assisted JavaScript-to-TypeScript migration routine covering incremental conversions, tests, type checks and pull-request preparation.
- Delivered features across React/TypeScript interfaces, Node.js APIs and Go services, including Git integrations, workspace variables and AWS/GCP OIDC authentication.
- Developed Go services for Terraform variable discovery and plan parsing, with Elasticsearch queries, PostgreSQL migrations and concurrency-safe persistence.
- Built real-time streaming for AI-powered infrastructure code generation and remediation, connecting backend services to React interfaces through Server-Sent Events.

Aporia | Full-Stack Developer | 2023-May 2025

- Led frontend development and built full-stack applications and APIs, including configuring and customizing an IDE from scratch.
- Designed microservices and maintained SQL/NoSQL databases in AWS environments; researched and implemented technical solutions.

Signature-IT | Full-Stack Developer | 2022-2023

- Developed responsive web applications, contributed to CI/CD and streamlined debugging and development workflows with Bash scripts.

TECHNICAL SKILLS

Development: JavaScript, TypeScript, React, Next.js, Node.js, Express, NestJS, Go, Python
Data & Cloud: PostgreSQL, Elasticsearch, MongoDB, AWS, GCP, Azure, OpenAPI
Engineering & AI: Git, GitHub Actions, automated testing, Claude Code, Codex

EDUCATION & CERTIFICATION

B.Sc. Computer Science, Open University - in progress, since 2024
Full-Stack Developer Diploma, Sela - 2021-2022
Microsoft Azure Fundamentals

LANGUAGES Hebrew - Native | English - Professional
